SITE PLAN INSTRUCTIONS

A. The site plan must be a Mechanical Drawing drawn with descriptive precision using the aid of drafting implements such as ruler, T squares, compasses, French Curves, etc. May be drawn either by hand or computer generated.
B. Must be to scale using an accurate drawing scale (for example: “1 in. = 10 ft.”, “1 in. = 100 ft.” etc.) and on a minimum of 11" x 17” paper. Should additional sheets be needed, please use match points.
C. Show the boundaries of the parcel, including the dimensions (found on the survey).
D. Show the location and dimensions of all existing buildings and structures.
E. Show the location of the proposed project or division, including the structure dimensions and distances to property lines and existing buildings and structures.
F. Show the location of all proposed and existing utilities, including power, phone, water, sewer systems, reserve drainfields, etc.
G. Show the location and dimensions of all existing and proposed roads, driveways, parking areas, rights-of-ways, and easements.
H. Show the location of any distinguishing physical features located on or adjacent to the property, including, but not limited to: streams, culverts, drainage ways, wetlands, slopes, bluffs, etc.
I. If you have questions regarding these instructions, please see the example provided below. If you have questions not covered in the example, please call (208) 734-9490, for assistance.

EXAMPLE SITE PLAN ---

Site plan must be computer-generated, to scale, and on a minimum of 11” x 17” paper.

NO WORK TO BE DONE UNTIL PERMIT IS ISSUED
