## AUDIT FINDINGS

### Narrative:

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The on-site portion of the PREA audit of the Snake River Juvenile Detention Center was conducted on August 7, 8, 9, 2016. Prior to the visit, the facility's PREA Coordinator uploaded all necessary documents to OAS. Extensive document review was completed prior to the visit.

During the audit visit, all areas of the facility were toured. The facility was clean and well organized. Juveniles seemed to be well supervised. 17 juveniles were in custody at the start of the audit. I was given a list of juveniles, and I went through the list, picking two, skipping one, picking two more and skipping the next one. In all, 12 juveniles were chosen in that manner and interviewed.

Almost all staff that were on-duty during the time I was in Twin Fall (even night shift) were interviewed. Interviews also included medical and mental health staff, administration. A final report-out meeting was held in which all deficient items were addressed. The facility staff, especially the PREA Coordinator, made required changes to policy and conducted training within 30 days of the audit, showing a deep commitment to the goals and intent of PREA.

**Facility Characteristics:**

The auditor's description of the audited facility should include details about the type of the facility, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation.

The Snake River JDC is located in Twin Falls, Idaho, and serves several of the surrounding counties. Juveniles range from 10-17, and all beds are short-term detention beds. The facility has an outdoor rec area, several classroom/multipurpose rooms, visitation area, administration area and housing wings.

The facility has a capacity of 27, although population at the start of the audit was 17. (At the time of the interim report, the population was less than 10 residents.) The facility is housed in a single building, although staff have access to a great training room in the adjacent building, which houses the juvenile probation department.

**Summary of Audit Findings:**

The summary should include the number of standards exceeded, number of standards met, and number of standards not met, along with a list of each of the standards in each category. If relevant, provide a summarized description of the corrective action plan, including deficiencies observed, recommendations made, actions taken by the agency, relevant timelines, and methods used by the auditor to reassess compliance.

<b>Number of standards exceeded:</b>	0
<b>Number of standards met:</b>	43
<b>Number of standards not met:</b>	0

The Snake River Juvenile Detention Facility should be commended for the quick action taken to correct deficiencies. Within the first 30 days following the audit visit, the facility had submitted proof that all corrective action items had been addressed, including a short training for staff regarding 115.364a.

All submitted documentation was reviewed by the auditor and was found to be satisfactory.

Even though the deficiencies were cleared up very quickly, the Interim Report was issued and was immediately followed by the Final Report.

As a result of the efforts at the Snake River JDC, all applicable standards were met well within the Corrective Action Period (actually, they earned compliance before the official Corrective Action Period started!)

<p>Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions.
