In the Matter of CONTRACTS

Commissioners considered a Hourly Overflow Public Defender Contract with Clayne Zollinger, Zollinger Law Office.

No action was taken.

In the Matter of PUBLIC DEFENDER

Commissioners considered an Hourly Child Protection Conflict Public Defender Contract.

Mellissa Kippes, Conflict Public Defender Administrator, reviewed the contract with the Board and noted they are having an extremely difficult time finding any attorneys for Conflict Public Defenders. Mrs. Kippes also noted that Child Protection cases are extremely long compared to other types of cases and are even harder to find attorneys to cover. Mrs. Kippes proposed to increase the hourly rate for child protection cases to attract more attorneys to cover the child protection cases. Mrs. Kippes asked for a child protection contract with a higher hourly rate. There was further discussion regarding the issue. Commissioner Johnson noted he does not want to raise the rate but would like more time to try and find a solution to the issue. Commissioner Reinke stated that he believes that Mrs. Kippes has exhausted all her options to solve the issue. Commissioner Hall noted that a decision is necessary due to pending cases with no attorneys.

Commissioner Hall made a MOTION to approve increasing the hourly rate for child protection cases from \$80.00 an hour to \$100.00 an hour; change the contract name to Hourly Child Protection Conflict Public Defender Contract, and allow outside county representatives to use remote technology to appear in court. The Board will have legal draft the changes. Commissioner Reinke SECONDED. Discussion Commissioner Hall noted that Mrs. Kippes did a good job in changing his mind about some of the unintended consequences of these actions and he would be voting in favor. Commissioner Reinke noted that the need, is extremely high and the county has never been in a position where there were no attorneys to take cases. Commissioner Johnson thanked Mrs. Kippes for all the hard work she put into preparing for the meeting. Motion Passed Unanimously.

ORDINANCE NO. 277

An Ordinance of the County of Twin Falls, Idaho, Clarifying and Amending the Fire Code in Twin Falls County.

WHEREAS, the Idaho Legislature has adopted the International Fire Code (IFC), including its appendices, which includes fire-flow requirements for buildings and gives discretion to local fire officials to reduce fire-flow requirements; and

WHEREAS, the Idaho Legislature has exempted certain detached single family dwellings constructed on lands five acres or more from fire-flow requirements at Idaho Code § 41-253; and

WHEREAS, the Idaho Legislature has empowered counties to reduce the acreage required for exempting single-family dwellings from the fire-flow requirements; and

WHEREAS, the local fire chiefs have requested that alternatives to IFC-approved fire-flow requirements be codified; and

WHEREAS, there are areas in Twin Falls County where a slow flow-rate of water supply means that alternative fire prevention procedures are the most cost-effective way to promote fire safety:

Now, therefore, be it ordained by the Board of County Commissioners for Twin Falls County, Idaho, that:

1. Title 7, Chapter 1, Section 3 (“Amendments to Adopted Codes”) of the County Code of Twin Falls County is hereby amended. After the existing Section B, a Section C shall be added to read as follows:

C. International Fire Code:

1. Pursuant to Idaho Code § 41-253(2), a detached single family dwelling, to be constructed upon lands of five (5) acres or more outside an incorporated city and not within a designated area of city impact, is exempt from the water supply and access requirements of the International Fire Code.

2. In rural areas and small communities of Twin Falls County (including areas of city impact), the local fire chief or the designee of the fire chief is authorized to reduce the fire-flow requirements of the International Fire Code for isolated buildings or a group of buildings where the development of full fire-flow requirements is impractical. Such reduction in the fire-flow requirements may include one or more of the following alternatives:

- a. Dividing a building using a two-hour fire barrier(s) to decrease the area(s) to less than the total cubic footage outlined in the National Fire Protection Association’s NFPA 1142.
- b. Installing a fire sprinkler system as outlined in NFPA 13, 13-D, or 13-R.
- c. Installing a full-coverage, monitored fire detection system.

2. Effective Date: This ordinance shall be effective upon passage and publication as provided by law.
