Idaho Department of Fish & Game – Maintain a no-development buffer of 100 yards from the elevation low point of the seep/stream (found in the southern half of the property), to retain riparian vegetation and wildlife habitat. Applicant's presentation

Ted Larsen, Attorney for the applicant reviewed the subject property and the surrounding properties with the Board. Mr. Larsen noted that the property is split and zoned both rural residential and agricultural. Mr. Larsen stated that the rezone is consistent with the comprehensive plan. The property is mostly unirrigated and has minimal agriculture use and would be a prime candidate for rural residential zoning. Mr. Larsen noted that the property is not considered working land due to a lack of irrigation. Mr. Larsen stated that his client has no issues with the recommended studies and the conditions of the government agencies.

Commissioner Matthews asked what the number of water shares are for the property. Mr. Larsen responded that there is a wastewater right on the property. Mr. Matthews asked about the roadways for the area. There was discussion on the roadway access.

Mr. Larsen noted that previously there was a music festival on the property that was very noisy. There are no specific plans to follow up the zoning change with a subdivision application at this time.

Public vomment received from affected persons

Marisa Eastman – opposed the rezone; canyon rim development concerns.
Carolyn Phillips – opposed the rezone; impact to wildlife and water concerns.
Patty Harwood – opposed the rezone; potential number of homes to be built, wells, and septic concerns.

Public comment nonaffected persons
Amy Westover – opposed the rezone; water and septic concerns.
Vickie Heinz – opposed the rezone; water and septic concerns; comprehensive plan concerns; wildlife concerns.
Amy Jo Berney – opposed the rezone; roadway access concerns; water concerns.
Mike Erickson – opposed the rezone; water, traffic, wildlife concerns;

Amy Scott – on behalf of mom Mary Scott – opposed the rezone; impact study, water concerns.

Ted Larsen, Attorney for Applicant, reviewed the map with the surrounding zones. Mr. Larsen noted that they are requesting to move the rural residential line West. The application is only for a rezone at this time. If there is a subdivision applied for, further studies could be part of that application process. Mr. Larsen noted that the wildlife concerns can be assessed at the time of an application for further development and a study at this point is premature. Mr. Larsen discussed the water concerns and the wells as well as the septic concerns and asked the Board to save that concern for a future application. Mr. Larsen reviewed the concerns that were addressed by the commenting persons and noted that further assessments would be addressed at the point of further development. The current request is only for a rezone.

Commissioner Matthews questioned the irrigation and water rights. Mr. Larsen addressed the current water use.

Commissioner Hawkins asked how the parcel was split and partially zoned rural residential and partly Ag. Lorie Jeske, staff reviewed the property and the zoning sections. The property was zoned by sections line, not by parcel number. Mr. McClure noted that he was aware of the split zoning when he purchased the property.

Commissioner Reinke questioned the discussion of 60 homes that were brought by the affected persons. Ms. Jeske stated she has no information other than the rezone application. Commissioner Matthews questioned the potential of over 300 homes. Ms. Jeske stated the terrain would not support that. Commissioner Reinke questioned the water in the area. Ms. Jeske stated that she did not have knowledge of that and water resources would have to provide the information. She also was not aware of a study of the water in that area. Commissioner Matthews stated that he was not aware of a water study either. The letter from IDWR stated that the property has one current water right but does not mention the waste water rights. Commissioner Reinke noted that the Land Trust is also concerned about water in the area.

The Board discussed the following issues and made the following findings:

1. Did the applicant submit applications? Yes
2. Were the applications complete? Yes
    a. Did the applications meet the requirements set forth in Twin Falls County Code Title 8 Chapter 13? Yes
3. Were the applications properly noticed in accordance with Idaho Code 67-6509 & 67-6511? Yes
4. Rezone Application
    a. Did the applicant meet the requirements for a rezone? Yes

b. Does it conform to the TF County Comprehensive Plan? Commissioner Matthews stated that currently there are 50 acres that are being farmed and the comp plan says to protect active farm ground.

c. Is the proposal compatible with surrounding uses? Yes, it does touch other Rural Residential property.

d. Has a need for the zoning change been established? No, because it is a separate parcel and without an actual end result being shown, there isn't a need shown. There is currently rural residential property that hasn't been developed. Commissioner Hawkins stated she does not see a need.

e. Is this spot zoning? No. It is contiguous with other rural residential.

Commissioner Reinke reviewed the decision options with the Board to include approve, disapprove, remand or modify.

Commissioner Reinke expressed his concern with water availability and the lack of information on the water in that area.

Commissioner Matthews stated that the comp plan directs them toward development of non-prime ag land. The property is not prime ag, but without information on the water and the lack of information from the Department of Water Resources to determine if there are spring rights on the property, it is difficult. The non-irrigated ag ground has the potential to have several hundred homes and with the lack of surface water the well water would be used to irrigate the properties. The Board has to look at the potential. Commissioner Hawkins noted that this is only a rezone request so that information is not part of the application.

Commissioner Hawkins noted that she understands the difference between the rezone application and a development application. However, without further information on the water, there are too many questions. Commissioner Hawkins stated that she is leaning toward remanding the decision back to P&Z for further information.

Commissioner Matthews stated that he has questions but not ones that he would remand the application back to P&Z. Based upon the current application, he did not feel it was the appropriate place for rural residential and based upon the information available he would vote to disapprove. Commissioner Hawkins stated her concern with remanding back is the cost to the applicant to start the process again. Commissioner Hawkins stated she would like more information on the water, the septics and wildlife. Commissioner Matthews stated he would also like further information on the Banberry geothermal overlay which would be gathered by the P&Z if the decision is remanded. Commissioner Matthews stated that they need to look at all the potential uses for the property.

Commissioner Matthews made a MOTION to remand the application back to the P&Z Commission with instructions to gather more information on the pivot water source, an in depth water survey, a wildlife assessment which would address the fish and game recommendations for

setbacks on the draw and spring, a septic percolation assessment which includes a property overlay of where the direction of water flows in the area under the five-foot mark, an updated letter from the Idaho Transportation Dept. which would address the turn lanes on the potential of 250 homes, and the applicant to provide the P&Z Commission with information on the Banberry geothermal moratorium as it relates to the property so the P&Z Commission understand the requirements and what happens if drilling encounters hot water, including whether they may continue drilling deeper to reach cold water. Commissioner Hawkins SECONDED. Discussion Commissioner Matthews noted that the Board has to consider the worst-case scenario and the missing information would help make a decision. Motion passed unanimously.

Commissioners conducted a public hearing to consider the Twin Falls County Budget for FY2027.

Commissioner Reinke opened the public hearing at 6:00 p.m.

Kristina Glascock, Clerk reviewed the proposed Twin Falls County budget for FY2027.

Leslie Wolfe asked for clarification on the budget expenditures for FY2025. Kristina Glascock, Clerk noted that there was an error in the formulas that caused the missing information. Ms. Glascock noted that the document would be corrected for the public hearing tomorrow.

Sheriff Jack Johnson thanked the Board and the Clerk for their work on the budget.
